NELA Service Agreements

Spare Part Programs:

NELA understands that your business is built to be profitable. Let us help maintain your profitability by offering 3 levels of spare part programs. Customized for your equipment needs, designed to eliminate costly down time situations and to give you maximum up-time potential. NELA offers three levels of spares that are designed to meet your budget and equipment needs.

Level 1: Silver Plan

The Silver Plan is designed with the most common consumable items in mind. Parts in this package include items like sensors, fuses, belts, oil valves, cylinders and punch pins & dies.

Level 2: Gold Plan

The Gold Plan is designed to give you the ability to solve 65% of situations that may arise. Parts in this package include the Silver Plan items as well as motors, electronics and pumps.

Level 3: Platinum Plan

Platinum Plan is designed to give you the ability to solve 95% of situations that may arise. Parts in this plan include all the parts of the Gold Plan as well as computers, PLC components and input blocks.

Plans can be broken up to meet your operation's needs. Please ask us so we can work together to create your custom package.

Contact us today for your free price quote for each tier. Call 1-888-407-4808 and ask for Carl Jones.
