## Slipsheet Remover

The NELA Slipsheet Remover is a device which will save you labor, money and eliminates scratched plates. Unique in its design, it has a **small footprint** and is able to be operated from one side, so it can be placed on a wall—convenient for smaller pre-press rooms with space limitations.

Operation is easy: place stack of plates on included trolley cart (or built-in drawer), roll into the device and start up machine. The sheets between the plates will be removed **without any further operator assistance** needed. Once all slipsheets are removed, simply pull out trolley (or drawer) with stacked

plates and roll to your CTP-device for loading.

A short learning curve and an **user friendly operator interface** will assure a smooth introduction into your pre-press department.

A yellow UV cover **protects plates** from daylight but still allows clear view of inside operation.

The way the slipsheets are removed is a **proven technology** used on over 500 devices worldwide for conventional plate punching devices. Pre-Press Managers appreciate the **good ROI** of this machine which pays basically for itself.

### **Technical Data:**

1. Paper Output
2. Plates Loading
3. Plates Unloading

### **Dimensions:**

Length: 118 inch (for single & double plates/Length depending on plate size)  
Height: 55 inch  
Depth: 35.5 inch

### **Electrical Supply:**

208 Volt, Single phase, 15 amps

### **Compressed Air Supply:**

(house air)  
100-110 psi, 10 cfm, 3/8" npt

### **Weight:**

1,700 lbs

### **Technical Features:**

- ⇒ 300 plates capacity
- ⇒ 200 plates / hour
- ⇒ For plates up to 36" wide
- ⇒ For single & double wide plates
- ⇒ Suitable for different kinds of slip sheets
- ⇒ Available with movable trolleys or built-in drawers

### **Advantages:**

- ⇒ Proven technology
- ⇒ Saves costs and time
- ⇒ No plate scratching
- ⇒ Easy loading & unloading

- ⇒ Easy installation
- ⇒ User friendly, low learning curve
- ⇒ Great ROI
- ⇒ Usable in daylight

### **Available as:**

- ⇒ Loader for single plates, two trolleys
- ⇒ Loader for single & double plates, two trolleys
- ⇒ Loader for single plates, one trolley, one drawer
- ⇒ Loader for single & double plates, one trolley, one drawer
